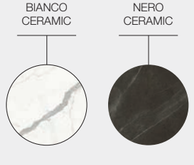
CERAMIC COLOURS



PRODUCT CARE
FABRICS CUSHIONS

When choosing exactly the right outdoor furniture for your particular needs, function is just as important as style. In the following pages we have listed details of the various fabrics and cushions we use for our furniture to help you plan your selections in detail. Further technical information, including downloads and care & maintenance instructions are available on our website www.gloster.com

PRODUCT
CARE & MAINTENANCE

TEAK CLEANER

VOLUME · 750ml

Cleans and brightens weathered teak in one, simple step.

TEAK PROTECTOR

VOLUME · 1 Litre

Repels water and moisture.
Prevents stains from food and drinks.
Use on weathered teak to retain silver-grey patina.

TEAK SEALER

VOLUME · 1 Litre

Retains golden-brown colour of teak.
Resistant to mould and prevents the formation of black spots.
Fast and easy to apply.

METAL CLEANER

VOLUME · 750ml

Cleans and restores the new look of powder coated aluminium furniture.

STAINLESS STEEL CLEANER

VOLUME · 1 Litre

Cleans and restores the new look of stainless steel furniture.
Makes stainless steel repellent to dirt and water.

SLING & WOVEN CLEANER

VOLUME · 750ml

Cleans and restores sling and woven furniture.
Special non-foaming formula.

WAX KIT FOR BUFFED TEAK

VOLUME · 150ml

Maintains and repairs the buffed finish on teak furniture.
For indoor use only - not suitable for use on furniture left outdoors.

CERAMIC CARE KIT

VOLUME · 2 x 200ml

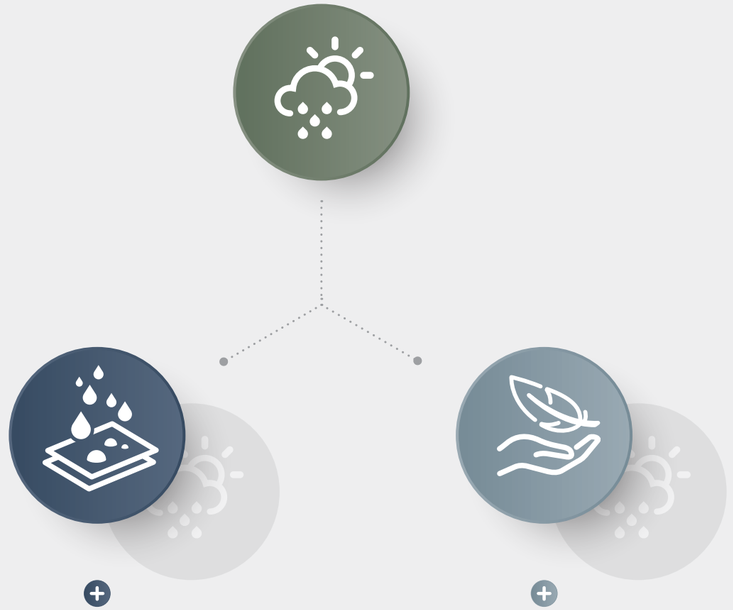
Care kit to enable both intense cleaning and regular maintenance of the ceramic materials Pumice, Nero and Bianco.

GLOSTER FABRICS

No matter which type of fabric you choose for your cushions, Gloster only use the best outdoor fabrics that are manufactured using 100% solution dyed acrylic yarns for maximum resistance to the fading and degrading effects of sunlight. All fabrics are finished with a water-repellent coating on the surface to reduce water absorbency. If the fabric does become wet from prolonged exposure, they will come to no harm, and the fabrics will dry out naturally. Gloster cushions are offered with fabrics that fall into three distinct groups:

OUTDOOR PERFORMANCE

Offered in a wide selection of stylish and sophisticated fabrics with a soft hand, our Outdoor Performance cushions use the softest, most luxurious fillings that give the feel of the most comfortable indoor furniture. A highly water-resistant barrier beneath the outer fabric cover protects the fillings, keeping drying times to a minimum.



MAXIMUM WATER RESISTANCE

For maximum water resistance, a selection of Sunbrella® Rain cover fabrics features a water-resistant coating that is applied to the back face, helping prevent water travelling beyond the surface of the fabric. Although not offering quite the same soft hand as our other fabrics, these water-resistant fabrics are very practical and quick drying. The fillings inside the cushion are engineered using open cell materials to allow for maximum air circulation, helping to speed up the drying process even further.

MAXIMUM SOFT TOUCH

Combining with all the benefits present in Outdoor Performance cushions, Gloster offers this range of exclusive knitted performance fabrics that are the first to be used outdoors. These knitted fabrics offer the ultimate in terms of softness, giving a sumptuous cosy feel, while the inherent stretch allows for the perfect fit to even the most demanding of cushion shapes. The Wave fabrics feature a unique, 3D knitted structure giving levels of texture and softness unparalleled in outdoor fabrics.

FABRICS
SPECIAL FEATURES

RAIN FABRICS

Sunbrella Rain is a water resistant version of the standard Sunbrella upholstery fabrics. Sunbrella Rain fabrics are treated with a weatherproof coating that minimises water absorbtion and enables the cushion to dry out much faster than standard fabrics.

Sunbrella Rain fabrics can be completely moisture-free within minutes after a simple wipe-down. When wet, the fabric threads actually expand slightly, meaning any water simply beads up on the fabric surface, rather than seeping into the cushion filling and leaving behind residual moisture. Sunbrella Rain fabrics are a little stiffer than the traditional Sunbrella fabrics, but they share the same market-leading performance in terms of durability, fade resistance, and ease of cleaning - making them the ideal choice for all outdoor living and dining spaces.

UKFR (FIRE RESISTANT) FABRICS

In addition to our standard grades of fabrics, we also off three specific fabrics in fire resistant versions. The fire resistant versions of the fabrics of Seagull, Granite and Fife Rainy Grey have an additional back coating applied to ensure they meet the stringent UKFR (Fire Resistant) standard. These fabrics are not water resistant, so we recommend that furniture covers are always purchased when specifying these cushions.

UKFR (Fire Resistant) cushions are available on the following furniture collections: Bay, Cradle, Grand Weave, Grid, Kay, Loop, Maya & Vista.

RECYCLED CONTENT FABRICS

The Grade A fabrics, Granite and Anthracite, both contain Sunbrella Renaissance yarns, which are recycled yarns that emulate a homespun look with a natural diversity of colour within the yarn. Due to the nature of the recycled content, these fabrics may exhibit random colour specks and shade variations. These slubs can sometimes be a contrasting colour.

The recycled content used is collected from the Sunbrella manufacturing facility, where the waste is segmented into colour groups, reduced back to its fibre state and finally mixed with virgin fibre before making its way through the manufacturing process. Due to the recycled nature of this fabric, the colour may vary between production batches and large sections of recycled yarns may run sporadically throughout the fabric. The presence of these recycled yarns should not be interpreted as imperfection, but as part of the character of the recycled fabric.
