TEAK, CRAFTS & INNOVATION
2019 COLLECTION

SWAY

Henrik Pedersen says: "In outdoor situations we often spend more time relaxing and lounging, and when dining we tend to take our time. So why not make the situation as comfortable as possible?" With Sway, the Danish designer has combined a finely proportioned teak frame with a practical sling seat and back to deliver inherent sprung comfort despite an extremely minimal profile.

SWAY

LOUNGE / DINING / BAR

Initially limited to dining chairs only, Henrik has expanded his concept for 2019 to include the introduction of a bar chair, lounge chair, a two seater sofa and an ottoman - adding both bar height and deep seating function and appeal to the Sway range.

SWAY

In outdoor situations we often spend more time relaxing and lounging, and when dining we tend to take our time. So why not make the situation as comfortable as possible, with a cantilever construction and a sling seat that is flexible enough to provide a soft landing.

MIX & MATCH

Tables offer the perfect starting point to mix and match. Experiment with different frame colours, sizes and table top materials to find the configuration that fits both your style and your space. Finally, choose the right chair to combine - maybe even several different styles for that truly individual look...

FABRICS

Express your individual personality by choosing from our wide range of Sunbrella® performance outdoor fabrics. From solids, to patterns, waterproof to knitted textures, there's a fabric to suit every style and application – all featuring unmatched durability, fade resistance, and ease of cleaning.

GLOSTER FABRICS

No matter which type of fabric you choose for your cushions, Gloster only use the best outdoor fabrics that are manufactured using 100% solution dyed acrylic yarns for maximum resistance to the fading and degrading effects of sunlight. All fabrics are finished with a water-repellent

coating on the surface to reduce water absorbency. If the fabric does become wet from prolonged exposure, they will come to no harm, and the fabrics will dry out naturally. Gloster cushions are offered with fabrics that fall into three distinct groups:

OUTDOOR PERFORMANCE

Offered in a wide selection of stylish and sophisticated fabrics with a soft hand, our Outdoor Performance cushions use the softest, most luxurious fillings that give

the feel of the most comfortable indoor furniture. A highly water-resistant barrier beneath the outer fabric cover protects the fillings, keeping drying times to a minimum.

MAXIMUM WATER RESISTANCE

For maximum water resistance, a selection of Sunbrella® Rain cover fabrics features a water-resistant coating that is applied to the back face, helping prevent water travelling beyond the surface of the fabric. Although not offering quite the same soft hand as our other fabrics, these water resistant fabrics are very practical and quick drying. The fillings inside the cushion are engineered using open cell materials to allow for maximum air circulation, helping to speed up the drying process even further.

MAXIMUM SOFT TOUCH

Combining with all the benefits present in Outdoor Performance cushions, Gloster offer this range of exclusive, knitted outdoor fabrics, the first to be produced using 100% solution dyed acrylic yarns. These knitted fabrics offer the ultimate in terms of softness, giving a sumptuous cosy feel, while the inherent stretch allows for the perfect fit to even the most demanding of cushion shapes. The Wave fabrics feature a unique, 3D knitted structure giving levels of texture and softness unparalleled in outdoor fabrics.
